Are you looking for a way to watch this movie for free? ww.123movies.ws is no longer active. No paid or free streaming links are available, however, you can still use this link for older and current streaming .Q: Using PDO for class I have a class that make some api call with curl. class ApiRequest { public \$data; private \$client; public function __construct(Client \$client) { \$this->client = \$client; } public function get(\$path, \$params = []) { return \$this->client->call(\$path, \$params); } } The problem is that I need to send some parameters to the function get() I could do it in this way \$curl = new Curl(); \$request = new ApiRequest(\$curl); \$curl->setOpt(CURLOPT_RETURNTRANSFER, true); \$request->get("/activities/all", ['access_token' => "xxx", 'user_id' => "xxx"]); \$json = \$request->get(); But the problem is that the ApiRequest class is not a model class and I don't want to send the value of the "access_token" and "user_id" from the PHP-script. So I thought that I could do it with PDO (I'm not a big fan of PDO since there is a lot of library in PHP that take on the PDO. And what I wanted to do is to do something like this class ApiRequest { public function __construct(PDO) { \$this->PDO = \$PDO; } public function get(\$path, \$params = []) { return \$this->PDO->prepare("SELECT * FROM *")->execute(\$params); } } and in the PHP script like this \$PDO = new PDO

Son Of Satyamurthy (Tamil) Full Movie | Tamil Movies. Mon and working days is 00' to 06' hrs. I am working in 59' hours every week. So I will work only on Sunday / friday.
